Cleaning up a liquid mess can be difficult, particularly if it is a hazardous material like an unknown chemical, bodily liquid or fuel. Absorb All can help turn an expansive spill into a material you can sweep away. Formulated to quickly clean up flammable liquids including gasoline, diesel fuel, aviation fuel, kerosene, motor oils, transmissions oils, paint primer, solvents, alcohol, inks and dyes, hydraulic fluids, and so much more.

DIRECTIONS

STEP 1: Scatter out Absorb All granules when you have encountered a spill or excessive moisture or chemicals that need to be cleaned up.

STEP 2: The amount you need depends on how big of a spill there is. Continue laying granules out and wait as they absorb the liquid.

STEP 3: Dispose of the granules safely according to local guidelines.

CAUTION

May be harmful if swallowed. May irritate eyes.

FIRST AID

IF IN EYES: Flush eyes and under eyelids for at least 15 minutes. If discomfort persists, see a physician.

IF ON SKIN: Wash with soap and water. Remove contaminated clothing and launder before reuse. If irritation is persistent, contact a physician.

IF SWALLOWED: Contact physician or poison control center immediately. Give affected person 1 to 2 glasses of water.

IF INHALED: Remove person to fresh air. Obtain medical attention if symptoms of allergic reaction appear within 12 hours.

See M.S.D.S. for complete safety information.

KEEP OUT OF REACH OF CHILDREN

Handling & Storage: Keep container tightly closed when not in use. Do not store in unmarked containers. Do not mix with any other chemicals. Store container in cool, dry place. Keep away from acids and strong oxidizing agents.
